

TRYON, NORTH CAROLINA

*Where the mountains and the good life begin*

## ROSEMONT circa 1925

Location: Tryon, NC   List Price: \$995,000   Acreage: 4+ acres   MLS 490551

This serene setting offers a ¼ mile of stone and brick walls and walkways amidst roses and aged plantings in numerous flower gardens. This amazing 3 bedroom, 3½ bath home offers a Gourmet kitchen with Granite counters, tin backsplash and cathedral ceiling. The expansive master suite enjoys privacy and an elaborate bath. There are four fireplaces, high ceilings and plaster molding, stone and chestnut floors and a courtyard with fountain and gazebo. A stone walkway leads to a well-appointed, charming guest house and workout room.

The home was completely renovated in 2002 back to its original charm and graciousness of times gone by — restoring plaster moldings and the addition of crown moldings. A stone fireplace and terrace was added and the grounds have been re-landscaped with a sprinkler system. Located at the end of a long drive, this is a setting rarely found, and is reminiscent of the sumptuous American life of the twentieth-century.
